Albert Esworthy House
Bartonsville
Private

C. 1902

The Albert Esworthy House has a history similar to many of the residences in the Bartonsville community. The land was purchased by a freed Black in the years immediately following the Civil War when Bartonsville was settled and a house was built.

The building, although a simple Carpenter Gothic, is significant to Bartonsville as one of few structures in the community which has retained many of its original architectural features.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Albert Esworthy House

This is a very plain late nineteenth century ell shaped vernacular two story frame house which faces north from the south side of Bartonsville Road.

The principal facade is three bays wide. The main entrance, a replaced core panel door with transom boarded closed, is located in the second bay. Occupying the remaining bays on the first and second level are original double hung 2/2 windows with wood sills and simple round molding surrounding each window.

An original one story hip roofed porch with standing seam tin roof extends across the house on the first level. The roof is supported by four full and two half turned columns with a frame tongue and groove porch. The main block of the building extends one room and two bays deep.

An original two story frame porch is located to the rear block of the building. The addition is three bays wide. A rear entrance, a two horizontal panel door with top light is located in the second bay on the west side of the addition. Located in the remaining bays are double hung 2/2 windows.

A small original standing seam hip tin roofed porch extends over the three bays on the west side of the building. It is supported by four square wood columns with scrolled brackets and replaced cement floor.

A two story open porch once extended along the east side of the addition but has been removed.

The entire structure is constructed of German siding over balloon framing covered with asbestos siding. The house is constructed on a low random stone foundation and is covered by a standing seam gable roof with cast iron snow stops and plain boxed cornice with return.

Two original single brick chimneys rise from the east and south gable ends of the building. One additional single brick exterior chimney is located on the west gable end of the building.

SPECIFIC DATES C. 1902

BUILDER/ARCHITECT Albert Esworthy

STATEMENT OF SIGNIFICANCE

The Albert Esworthy House has a history similar to many of the residences in the Bartonsville community.

The land was purchased by a freed Black in the years immediately following the Civil War when Bartonsville was settled and a house was built.

On October 6, 1868 Mary Esworthy purchased five acres from Richard and Ann Waters.¹ She owned the property until her death, when in January, 1902, Albert and Josephine Smith purchased it from the trustees settling her account for \$400.00.²

The existing house was probably built at this time perhaps replacing an older log dwelling on the site.

In 1920 Bertha Lare purchased the home and lived in it forty-three years. The building, although a simple Carpenter Gothic, is significant to Bartonsville as one of few structures in the community which has retained many of its original architectural features.
